EDUCATION

Bachelor of Arts : Computer Science   May 2021
Wartburg College | Waverly, IA | GPA: 3.51

RELEVANT COURSEWORK

-Artificial Intelligence   -Internet Programming
-Data Mining   -Data Structures and Algorithm Analysis
-Systems Analysis   -Object Oriented Modelling and Design

RELEVANT WORK EXPERIENCE

<u>Capstone Project</u> | Wartburg College   Jan 2021 - April 2021
  - Built a student marketplace app named ZELLIT in React Native for iOS primarily using JavaScript
  - Developed app integration with Firebase API for user authentication, JSON app data and file storage
    so that users can seamlessly access their data on multiple iOS devices
  - Developed documentation, code comments, layouts and weekly progress reports

<u>Full-Stack Developer Intern</u> | Show Marketing Pro | Las Vegas, Nevada   May 2020 - Aug 2020
  - Worked closely with an established team of developers and interacted with the marketing team and
    designers on a web based booking app
  - Gained hands on expertise in JavaScript/jQuery, CSS3, front-end JS Frameworks and HTML5
  - Participated in meetings by gathering requirements and demonstrating product features to drive
    discussion and feedback.

<u>Technology Assistant</u> | ELITE | Wartburg College   Sept 2019 - May 2020
  - Provided software support and technology resources to the Wartburg Community including faculty and
    students
  - Troubleshooted computer software problems to isolate technical issues and determine their cause
  - Helped in reviewing and cleaning up code for scripts
  - Managed the social media presence for Vogel Library

RELEVANT PERSONAL PROJECT EXPERIENCE
  - Working on a social event app using React Native that allows users to get involved in events around them
  - Created pomodoro app using ReactJS, CSS3 and HTML5 for time management
  - Created various apps in Swift using UIKit and SwiftUI including a weather app and To-do list app
